### **DETAILED ACTION**

1. Receipt is acknowledged of Applicant's Preliminary Amendment, filed March 15, 2004.
2. Receipt is acknowledged of Applicant's Prior Art Statements, filed January 28, 2002, July 11, 2002, and March 15, 2004, respectively.
3. Claims 1-27 are presented for examination.

### ***Election/Restrictions***

4. Restriction is required under 35 U.S.C. 121 and 372.
5. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-15, and 20-27, drawn to a polishing body and method of polishing.

Group II, claim(s) 16-19, drawn to a method of making a polishing body.

The inventions listed as Groups I, and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of Group I is the particular structure and composition of a polishing body and its use in as a polishing pad for polishing. The special technical feature of Group II is the particular method steps for forming a polishing body. Since the special technical features of Group I and Group II are different, unity of invention is lacking.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
